The Supervisors' Committee which has been investigating the Warburton-ave. extension commission held its final session yesterday. Messrs. Cooper and Coyne, an engineer and commissioner, respectively, testified as to the cost of the construction of the bridges. The committee's report will be presented to the Supervisors in January. The Investigating Committee was appointed last spring by the Democratic Roard of Supervisors under a law fathered by Senator Graney. The investigation has been looked upon by many as a political measure. The Warburton-ave, boulevard, the construction of which has been in charge of two separate commissions, has cost about \$210,000, of which the county paid \$55,000. The remaining sum was paid by the town of Greenburg and the city of Yonkers.

The papers have been filed with the Secretary of State, and the capital is \$50,000. The directors named are John T. Kirk and B. F. Withaus, of Brocklyn, and L. B. Lampmann, of Coxsackle. The present gas company is now charging \$1.50 a thousand feet, a reduction of 40 cents having been made last May. The new company has not yet made application for a franchise to lay mains and erect lamps, and it is believed that the Village Trustees are not inclined to grant further franchises to gas companies to tear up the streets.

For some time past Mrs. Johnston, the wife of Professor B. E. Johnston, of this city, has been missing valuable articles from her apartments in a private boarding house, in Warburton-ave. Suspicion rested on Mrs. Mahoney. The police visited her house yesterday, and they found all of Mrs. Johnston's stolen property, and much more. The suspected woman was seated in the courtroom, when an invoice was being taken of the goods. She sat perfectly still, and it was found that she had become unconscious. The Rev. John E. MADISON SQUARE GARDEN FOR POLICE.

CHIEF DEVERY QUOTED IN FAVOR OF USING IT FOR OFFICES AND DRILLROOM.

Much scorn and derision were expressed by New-Yorkers yesterday on account of a proposal of Chief of Police Devery to have the city buy the Madison Square Garden Building and turn it over to the police for use as headquarters and drillcom. Mr. Devery has declared that the Health Department, which has been driven in turn from Central Office, in Mulberry-st., and from the the Central Office, in Mulberry-st., and from the Criminal Courts Building, might go back to Mulberry-st, if the Madison Square Garden is secured for the police. Then, Mr. Devery declares, the police could have a thousand men drill at once under one roof, without the trouble of hiring armories. There would be room in the Madison Square Garden, he thinks, for suitable offices for himself, the Police Commissioners and other police officials.

Better police work in the streets, and not better offices for the officials and larger drillrooms for the men, is what is needed, citizens were saying yesterday. Under the present Tammany administration, it was declared, the police corruption and inefficiency have become notorious.

HOGG FOR BRYAN'S RUNNING MATE. Austin, Tex., Dec. 1.-While William J. Bryan and other politicians were making rear end train speeches at Eligin, near this city, last evening, a boom was started for ex-Governor James Hogg for second place on the National Democratic ticket, and Mr. Bryan warmly applauded the proposition, and Mr. Bryan warmly applauded the proposition. Attorney General Smith extolled Mr. Bryan as a great leader, and assured the audience that he would be elected President in 1900. Mr. Smith added that he hoped to see, and knew that he would see, ex-Governor Hogg occupying the second place on the National ticket, as he would make an excellent running mate for Mr. Bryan. This created great enthusiasm, and Mr. Bryan applauded heartily with the remainder of the crowd. Cries for Hogg brought him to the front, and he announced that the honor sought to be thrust upon him was more than he expected; that he did not want any office and was not looking for any, that he thought the Vice-Presidency should go to a Western man.

The conclusion of his letter is the following:

St. Louis, Dec. 1.—At the Methodist Episcopal Church Congress in the Lindell Avenue Methodist Church to-day, an address on "The Present Needs of the Ministry," was made by Professor Borden Bowne, of Boston University. The question of the higher criticism of the Bible was touched on in the course of Professor Bowne's remarks. Conservatives received a rap from the speaker, who the real heretics.

UPHOLSTERY WEAVERS' STRIKE.

Philadelphia, Dec. 1.-About 800 union upholstery weavers went on strike to-day, closing twentysix mills and throwing out of employment nearly 3,000 hands engaged in various departments of the factories. The strikers demanded a working week of fifty-five hours, and 10 cents an hour for overtime, and an increaseed wage scale.

The advance asked is a coneral increase of about 25 per cent. The strike is the result of the failure of the manufacturers to sign the new scale preof the manufacturers to sign the new scale presented by the Weavers' Union a few days ago. Many of the manufacturers had made an advance of 15 per cent, and when the new demand was made they refused to consider it. The weavers set to-day for a final answer, which was not forthcoming, and they went out in a body.

This city and Paterson, N. J., are the centres of

the uphoistery weaving industry in this country, and there are about 1,100 skilled weavers in Philadelphia. The Orinoco and Century Mills, employing about 700 weavers, have signed the new scale. There are thirty-two women in the strikers' ranks. They are the only female uphoistery weavers in this country.

WILL SUGAR INTERESTS UNITE?

REPORT FROM CHICAGO THAT ALL, THE COMPANIES WILL CONSOLIDATE IN NEW CORPORATION WITH \$200,000,000 CAPITAL.

Chicago, Dec. 1.—"The News" says to-day that a \$200,000,000 trust is in contemplation. There is every prospect that the American Sugar Company, the Glucose Refining Company and all of the socalled independent sugar refineries will be consoitdated. H. O. Havemeyer, of the sugar combine, has, it is understood, secured an option on the Arbuckie Sugar Company, the Doscher concern and the outside plants in Boston and Now-Orleans. This evening he will, it is said, receive a definite propo-sition from the Glucose Company, when his representatives, who left Chicago last night, arrive in New-York.

It has been ascertained that representatives of the Havemeyer Company have been in this city in conference with C. H. Matthiesen, president of the Glucose Company, for several days. The result of these conferences, it is said, was an option on the

The important feature of the plan is that the American Sugar Company will increase its capital-tzation from \$75,000,000 to \$200,000,000. It is understood that \$30,000,000 of this will be given to the Glucose people for their plant and \$20,000,000 to the outside refineries, and that the entire common stock of the Sugar Trust will be put on an 8 per cent basis. The rate of disbursement on the preferred shares will not be changed, while the holders of ordinary will be allowed to subscribe for the new

ordinary will be allowed to suscende for the new certificates at par.

The capital of the Glucose Refinery Company is \$40.000,000-\$14.000,000 preferred and \$25,000,000 common—so that the certificates will be taken in presumably at an average of \$75 a share.

When questioned in reference to the prospective sale of his company, C. A. Matthiesen to-day refused to discuss the matter, saying: "Any information that may be of value to the public will be given out at the proper time."

The dispatch from Chicago announcing the formation of a \$200,000,000 combination, embracing the Sugar Refining Company, Arbuckle Brothers, the Glucose Sugar Refining Company and various independent concerns, was discredited in various independent concerns, was discredited in trade circles here. C. R. Heicke, secretary of the American Sugar Refining Company, said he knew nothing of the deal and would not give it out for publication if he did. At the office of Arbuckle Brothers 'nothing was known of the matter.' B. H. Howell & Co., representing important independent refineries, did not believe there was any truth in the story. New-York Sugar Refining Company Interests knew nothing of it and recalled the fact that a similar story was launched last spring, but without corroboration as yet. a similar story was launched last spring, but without corroboration as yet.

As it was stated that the deal would be consummated at a meeting to be held in this city last evening, on the arrival of H. O. Havemeyer's representative from the West with a definite proposition from the glucose people, inquiry was made, with the result of ascertaining that the leading spirits in the proposed combination did not meet here last night, and if the report is true the discussion of the proposed deal cannot take place before Monday at the earliest.

H. O. Havemeyer, whose presence would be required at such an important conference, is now at Hartford, and the treasurer, Arthur Donner, is spending the Thanksgiving holidays with his family in Massachusetts. Edward F. Wemple, the New-York agent of the Glucose Sugar Refining Company, who has apartments in The Catharine, No. 1 West Seventy-mint-st, declined to discuss the reported combination; and John E. Parsons, one of the directors of the American Sugar Refining Company, after carefully reading the dispatch giving the alleged details of the big deal, said. "I never talk to the newspapers on sugar matters."
